What is an exhibit in this sample?

Each source entry is an invented item with a stable ID and full text. The exhibit pages reproduce that text, not a proposal for a future page. The surrounding headings, tables and provenance notes are preparation aids and are identified as such.

What this file does not certify

It is not filed, court approved or a statement of compliance with any court direction. It has no real case number, statement of truth, signature, official seal or original provider stationery. Any real bundle would need its purpose, selection, directions, pagination and required format agreed and checked separately.

All times are UK local times. Within each message group, entries retain fixture order. The chronology sorts the selected events by date. The PDF folio is the physical PDF page number.

This chronology is an authored aid. The source wording appears in the exhibit sections. It does not turn an account, proposal or request into an established external fact.

EVIDENCE. CONTEXT. CLARITY.

An issue map for navigation

Use the map to locate source material. The bundle organises the record and does not decide the issues.

Issue	Primary messages	Supporting exhibits	Boundary
Collection	M01 , M02 , M03 , M04 , M05 , M06 , M07 , M08 , M09 , M10 , M11 , M12	E01 , E02	School records do not establish every event after departure.
Supervision	M13 , M14 , M15 , M16 , M17 , M18	E03 , E04	A relayed concern and adult accounts remain separate.
Holiday	M19 , M20 , M21 , M22 , M23 , M24	E05	The revised plan supersedes the first proposal.
School notices	M25 , M26 , M27 , M28 , M29 , M30	E06	A current list is not a historical delivery audit.

Avoid a false connection

A financial disagreement does not establish a supervision event. A collection record does not decide an email delivery dispute. Use the source for the specific proposition it addresses.

The companion reviews use this same fixture. A different source ID in another family's example belongs to a separate fictional corpus. Do not combine the Morgan and Reed records with the Ellis example.

EVIDENCE. CONTEXT. CLARITY.

Preparation and source control

The full fixture is included once. No source entry is excluded, shortened or rewritten in the exhibit sections.

Control	Recorded treatment
Source selection	48 messages, eight emails, 12 receipts and six account extracts.
Source order	Messages grouped into eight topic sequences. Emails, receipts and extracts follow stable ID order.
Pagination	Continuous PDF pages 1 to 32. Visible folios match physical page order.
Cross references	Each M, E, R and B source anchor resolves to its full entry.
Redaction	No redaction required because every field is invented. No real addresses, accounts or signatures used.
Attachments	No attachment or original binary document is claimed to exist behind these texts.
Dates and times	Displayed as UK local time. No conversion to UTC is implied by the exhibit formatting.

Integrity within a constructed example

The preparation check compares the text extracted from this PDF with the fictional fixture. This establishes internal reproduction only. It does not authenticate real communications or create forensic provenance. Source hashes in the production record refer to the constructed fixture entries.

Historical material is preserved

This showcase is a new public sample edition. It does not overwrite an issued report, alter original evidence or change a real person's document access.

The headings and financial aids are reviewer authored. Original item wording within this demonstration is the exact source text stored in the fixture.

Can you collect Jamie at 15:30 tomorrow and bring Jamie to the library at 17:00 on Sunday?

M02 · 9 Apr 2026 · 18:14 · Reed

Yes. School at 15:30 on Friday and the library at 17:00 on Sunday.

M03 · 10 Apr 2026 · 14:52 · Reed

My train is delayed. I expect to arrive at school at 16:10. Can the office keep Jamie until then?

M04 · 10 Apr 2026 · 14:58 · Morgan

I have spoken to the office. They can supervise Jamie from 15:30. Please tell them when you arrive.

M05 · 10 Apr 2026 · 16:09 · Reed

Collected Jamie now. The office was expecting me.

M06 · 12 Apr 2026 · 17:08 · Morgan

Jamie is with me after the library handover. Thank you for the message on Friday.

For tomorrow can you collect from school at 15:30? I need to leave for work.

M08 • 7 May 2026 • 18:24 • Reed

My sister Quinn can collect at 15:30. I will join them at home at 16:15. Is that okay?

M09 • 7 May 2026 • 18:35 • Morgan

Yes, for tomorrow. Please give the school Quinn's name and ask them to confirm.

M10 • 8 May 2026 • 08:11 • Reed

I have emailed the school and copied you. Quinn has identification with her.

M11 • 8 May 2026 • 15:35 • Reed

Quinn says she collected Jamie at 15:32. I will be home as planned.

M12 • 8 May 2026 • 16:22 • Morgan

The school has confirmed the collection. Please use the same process if we agree another person in future.

Jamie told me about waiting in a parked car yesterday while you went into a shop. Was an adult with Jamie?

M14 • 7 Jun 2026 • 09:28 • Reed

Quinn was in the car with Jamie. I went inside to pay for fuel. I was away for about three minutes.

M15 • 7 Jun 2026 • 09:40 • Morgan

Jamie said you were not there. I do not know whether Jamie meant you or every adult. Please ask Quinn for her account.

M16 • 7 Jun 2026 • 10:05 • Reed

I will ask Quinn to write what she remembers. I agree that Jamie should stay with an adult.

M17 • 8 Jun 2026 • 18:10 • Morgan

I have read Quinn's email. It gives her account, but it does not tell us exactly how Jamie understood what happened.

M18 • 8 Jun 2026 • 18:30 • Reed

Understood. We can record both accounts. I will tell you in advance if another adult is supervising.

M21 · 7 Jul 2026 · 08:10 · Morgan

M26 • 27 Aug 2026 • 17:20 • Reed

I have not received this form. Please forward it and copy me into a request to the office.

M27 • 27 Aug 2026 • 17:31 • Morgan

Forwarded it now. I have asked the office to check both addresses for general notices.

M28 • 28 Aug 2026 • 09:05 • Reed

The forwarded form arrived. I have sent the office my current address directly.

M29 • 1 Sep 2026 • 16:15 • Morgan

The school says both addresses are now listed. This does not tell us which earlier notices reached you.

M30 • 1 Sep 2026 • 16:28 • Reed

I agree. I can confirm receiving today's test notice, but I cannot reconstruct every earlier email.

The April club receipt is £48. Please contribute £24 for half of that item.

I agree £24 for the April club. I will send it on 6 April.

M33 • 16 Apr 2026 • 18:05 • Morgan

The uniform receipt is £72. I am asking for a £36 contribution.

M34 • 17 Apr 2026 • 08:20 • Reed

I do not agree the £36 uniform contribution. We had not discussed replacing those items.

M35 • 20 May 2026 • 18:40 • Morgan

The May trip cost £90 and the shoes cost £64. I am asking for £45 for the trip and £32 for the shoes, £77 in total.

M36 • 20 May 2026 • 19:10 • Reed

I agree £45 for the May trip. I will send that amount on 22 May.

M37 • 19 Jun 2026 • 18:00 • Morgan

June club was £48 and the dentist receipt was £120. I am asking for £24 and £60 respectively, £84 together.

M38 • 20 Jun 2026 • 08:20 • Reed

I agree the £24 club contribution. I do not agree the £60 dental contribution without discussing whether any support or refund applies.

M39 • 3 Jul 2026 • 18:10 • Morgan

The camp receipt is £240. I am asking for £120 as a half share.

M40 • 3 Jul 2026 • 18:40 • Reed

I agree £80 for camp. I dispute the other £40 because the extra days were not part of our plan.

M41 • 21 Jul 2026 • 18:10 • Morgan

The learning device cost £180. I am asking for £90 towards it.

M42 • 21 Jul 2026 • 19:00 • Reed

I do not agree the £90 device contribution. I had proposed using the tablet already at my home.

M47 • 24 Sep 2026 • 18:10 • Reed

I sent £47 for the September trip today. The remaining £8 will follow later.

M48 • 25 Sep 2026 • 09:10 • Morgan

I have received the £47 for the trip. I still cannot identify the purpose of the £20 sent on 25 August.

Collection record for 10 April

Our collection register records Jamie waiting with the office team from 15:30 and leaving with Reed at 16:09. Morgan telephoned before the end of the school day to tell us there would be a delay. We supervised Jamie until collection. This email describes only the school waiting period and the collection entered in our register. It does not record the train journey, the reason for the delay or arrangements after departure. Please contact the office if you think the collection entry needs a factual correction.

E02 · 8 May 2026 · 16:02 · Oakfield school office

Collection by Quinn on 8 May

We received Reed's email naming Quinn as the agreed collector and Morgan's reply confirming that arrangement for today. Our register records collection at 15:32. The office checked the name against the instruction supplied. This email confirms the entry in the school register. It does not confirm the time Reed later arrived at home or create an ongoing arrangement for Quinn to collect on other dates. Please provide a fresh instruction if the agreed collector changes.

My account of 6 June

Reed asked me to write what I remember about the stop for fuel on Saturday 6 June. I was sitting in the rear of the parked car beside Jamie while Reed went inside to pay. We were discussing a book. I did not use a timer and cannot give an exact duration. I remember Reed returning after a short time. I did not hear Jamie's later conversation with Morgan, so I cannot explain the words Jamie used. This is my recollection and I have not seen CCTV or a receipt showing the time of the stop.

E04 · 9 Jun 2026 · 10:00 · Morgan

Record of the supervision discussion

For the record, I raised the concern after Jamie said Reed had gone into a shop. My messages on 7 June asked whether an adult was present. I did not witness the stop and I did not make an audio recording of Jamie's words. Quinn's account says she stayed in the car. I want that account retained beside the concern, rather than presenting my first message without the responses. My request for advance information about another supervising adult concerns future arrangements. It does not independently establish what happened on 6 June.

Confirmed July dates

Following our messages, I have recorded the agreed holiday dates as 20 to 23 July. Collection is from home at 10:00 on 20 July. Return is to the library at 17:00 on 23 July. My earlier proposal ending on 24 July is superseded by our later agreement. Please flag an error before the stay if these details do not match your understanding. This note records the agreement; it is not a record that either handover has already happened.

General notice contact list

We have now listed both Morgan and Reed for general school notices and sent a test notice to both current email addresses today. This message confirms the list as at 1 September. The office has not completed an audit of delivery to either address before that date. Listing an address does not prove that every earlier or future email was received or read. Please tell us about a missing notice so we can check the individual message and resend it where appropriate.

Receipt reference RC06

The specimen receipt RC06 records £120 paid on 18 June for Jamie's appointment. Within this fictional billing record there is no refund entry between 18 and 25 June. We cannot determine from the receipt whether another person agreed to contribute or whether support could be available from a different source. The receipt and this reply address the amount recorded as paid to the practice, not the sharing arrangements between adults. No clinical information is included in this sample.

E08 · 28 Sep 2026 · 18:00 · Reed

Reference on the August £20 payment

The £20 transfer on 25 August was intended as a general contribution to Jamie's expenses. I did not choose a particular receipt or invoice when I sent it, and the reference was only Jamie expenses. I have not agreed to allocate that transfer to the disputed uniform, dental, camp or device amounts. Please keep it separate until we agree where it belongs. This email does not change the £47 trip payment or my message that a further £8 for that trip would follow.

The request difference is not a debt finding. The £20 remains unallocated for the reasons stated in E08. Sources M31 to M48 contain the contribution language.

Source manifest and completion record

All 74 entries in the selected fixture are present as complete text. This final manifest provides a compact check against the linked index.

Group	Entries	Exhibit pages	Reproduction
Messages	M01 to M48 · 48 entries	7 to 14	Complete bodies, dates and attribution.
Emails	E01 to E08 · 8 entries	15 to 18	Complete bodies, subjects, dates and sender labels.
Receipts	R01 to R12 · 12 entries	19 to 24	Complete specimen receipt text.
Account extracts	B01 to B06 · 6 entries	25 to 30	Complete selected extract text and matching tables.

Completion checks

The source text, amounts and identifiers are compared with the fictional fixture. The final PDF is checked for valid internal destinations, consecutive folios, readable page bounds and nonblank pages. Each source group appears once in the exhibit sections.

If the set changes

A later addition requires a new entry ID, an updated index, recalculated page references and a new presentation edition. Existing source wording should remain available. A correction to a reviewer's summary is different from a change to source evidence.

A complete specimen, a bounded purpose

This file demonstrates careful organisation and navigation. It is not a real court bundle or a statement that any court's filing directions have been met. Its exhibits are entirely invented.

Prepared as a public showcase on 6 October 2026. Morgan, Reed, Jamie, Quinn, Oakfield school and Willow dental desk are fictional names in this specimen.
